VOLUME CVIII.--NO. 49. ALEXANDRIA, VA., TUESDAY EVENING, FEBRUARY 26, 1907. PRICE 2 CENTS.

They Stand Alone.

Standing out in bold relief, *all alone*, and as a conspicuous example of open, frank and honest dealing with the sick and afflicted, are Dr. Pierce's Favorite Prescription for weak, over-worked, debilitated, nervous, "run-down," pain-racked women, and Dr. Pierce's Golden Medical Discovery, the famous remedy for weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness, all catarrhal affections whether of the stomach, bowels, kidneys, bladder, nasal passages, throat, bronchia, or other mucous passages, also as an effective remedy for all diseases arising from thin, watery or impure blood, as scrofulous and skin affections.

Each bottle of the above medicines bears upon its wrapper a badge of honesty in the full list of ingredients composing it—*printed in plain English*. This frank and open publicity places these medicines *in a class all by themselves*, and is the best guaranty of their merits. They cannot be classed as patent nor secret medicines for they are neither *—being of known composition.*

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers as cures for the diseases for which these medicines are recommended. Therefore, the afflicted do not have to rely alone upon Dr. Pierce's recommendation as to the curative value of his medicines for certain easily recognized diseases.

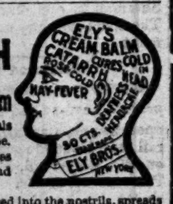
A glance at the printed formula on each bottle will show that no alcohol and no harmful or habit-forming drugs enter into Dr. Pierce's medicines, they being wholly compounded of glyceric extracts of the roots of native, American forest plants. These are best and safest for the cure of most lingering, chronic diseases. Dr. R. V. Pierce can be consulted FREE, by addressing him at Buffalo, N. Y., and all communications are regarded as sacredly confidential.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

Nasal CATARRH

In all its stages.

Ely's Cream Balm



cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Druggists or by mail; Trial Size, 10 cents.

YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," But the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of Dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

Catarrh

To prove unquestionably, and beyond any doubt, that Catarrh of the nose and throat can be cured, I am furnishing patients through druggists, small free Trial Boxes of Dr. Shoop's Catarrh Cure. I do this because I am so certain, that Dr. Shoop's Catarrh Cure will bring actual substantial help. Nothing certainly, is so convincing as a physical test of any article of real, genuine merit. But that article must possess true merit, else the test will condemn, rather than advance it. Dr. Shoop's Catarrh Cure is a snow white, healing antiseptic balm, put up in beautiful nickel capped glass jars at 50c. Such soothing agents as Oil Eucalyptus, Thymol, Menthol, etc., are incorporated into a velvety, cream like Petrolatum, imported by Dr. Shoop from Europe. If Catarrh of the nose and throat has extended to the stomach, then by all means also use internally, Dr. Shoop's Restorative. Stomach distress, a lack of general strength, bloating, belching, biliousness, bad taste, etc. supply call for Dr. Shoop's Restorative.

For uncomplicated catarrh only of the nose and throat nothing else, however, need be used but

GREATER ALEXANDRIA.

Big Possibilities Still Existing in Coal and Iron Production—Analyses of Iron Ores of West Virginia and Virginia.

THIRD LETTER.

Shelton, Va., Feb. 25.

To the Editor of the Alexandria Gazette.

In West Virginia is a great iron, ore and coal territory, which should supply the lowest priced pig iron for open hearth steel and iron industries on tidewater at Alexandria. There are also great iron ore deposits along the mountain ranges of the west slope of the Blue Ridge, the Massanutten and the North Mountain in the Clinton formation, which can furnish a needed mixture with the red ores farther west and which in time can be the basis for pig iron furnaces nearer to Alexandria. Thus an exchange of freights would be secured as well as an exchange of freight on pig iron worked up at or shipped from Alexandria. Remember that the basic steel process gives new value to these possibilities in iron and steel production.

On a late visit to Alabama I found in that well developed territory, where the Tennessee Iron and Coal Company is paramount, there are still thousands of acres of mineral land on the market. How much greater is this true in the undeveloped territory of West Virginia and Virginia! My correspondence shows this to be the fact.

To form an idea of the great possibilities still existing in coal and iron development we will note the following facts: It is authoritively stated that the United States Steel Corporation is capitalized at about one and a half billion dollars. The Saturday Evening Post of April 14, says: "The good will of the United States Steel Corporation, for example, is represented by about a half a billion of common stock." It is said that J. P. Morgan and Company, promoters of this steel corporation, received one hundred and fifty million dollars for promotion. It is said that ten million dollars went to the promoters of the tin plate merger, of which the total capitalization was forty-six million dollars. The Southern Steel Corporation with headquarters in Alabama is capitalized at twenty-five million dollars. The East Tennessee and Virginia Steel Corporation operates in the Chattanooga, Tennessee, and the Birmingham, Alabama, districts with an immense capital. It operates on the same class of iron ores that are abundant in West Virginia and Virginia. A railroad is now building from Romney, Hamdshire county, West Virginia, to Petersburg, Grant county, up the South Branch of the Potomac. This road lies contiguous to beds of red, brown and red fossiliferous iron ores. I give a few analyses of iron ores from this territory, as follows:

RED FOSSILIFEROUS ORE FROM FRANKLIN, COUNTY, W. VA.	
Sesquioxide iron	80.836
Silica	5.722
Phosphorus	.131
Sulphur	.730
Metallic iron	56.586
BROWN HEMATITE FROM CAPON IRON WORKS.	
Metallic iron	45.00
Phosphorus	.483
Sulphur	.472
Silica	11.771
This ore is found all along the North Mountain in W. Va., and Va.	
RED IRON ORE FROM GRANT COUNTY, W. VA., 7-FOOT VEIN.	
Metallic iron	48.13
Phosphorus	.803
Sulphur	.648
Silica	15.555
Another ore nearby shows 52.52 per cent. of metallic iron.	
RED HEMATITE FROM HARDY COUNTY, SIXTEEN FEET OF SOLID ORE.	
Metallic iron	44.42
Phosphorus	.131
Sulphur	.730
Silica	18.000
BROWN HEMATITE FROM HARDY COUNTY.	
Metallic iron	56.232
Phosphorus	.580
Sulphur	.428
Silica	5.722

The carbonate iron ores of the coal surely have a future. It is from that class of ores the famous Scotch foundery pig is made. The analysis of nearby coal shows it to be suitable for coking and for furnace use.

An immense acreage of these iron ores and of coal land can be secured by a company capable of doing business in a business way. There are in this coal and iron territory persons who control large acreage of mineral lands, who will gladly aid in the work of development by merging their interests, or otherwise. At the same time there are thousands of acres in the hands of the original owners that can be secured.

The charter of the Bluemont Branch, of the Southern Railway carries that road via Winchester, through Hampshire, Hardy, Grant, Tucker, Randolph, Upshur, Lewis, Gilmer, Calhoun, Roane, Jackson and Mason counties, West Virginia, to the Ohio river at Point Pleasant. If it was carried through Hampshire, Hardy, Grant, Tucker, Randolph, Upshur and Lewis counties, West Virginia, it would tap the iron ores and coals at their best, and it would reach good cooking coal at about 181 miles from Alexandria. Fifty-one and a half miles to Bluemont leaves, say 130 miles to build to coal. Respectfully yours,

W. G. DOUGLAS.

Croup can positively be stopped in 20 minutes. No vomiting—nothing to sicken or distress your child. A sweet, pleasant, and safe Syrup, called Dr. Shoop's Croup Cure, does the work and does it quickly. Dr. Shoop's Croup Cure for Croup alone, remember. It does not claim to cure a dozen ailments. It's for Croup, that's all. Sold by E. S. Leadbeater & Sons, druggists.

INVESTIGATING HARRIMAN.

The enormous overcapitalization of the Chicago and Alton Railroad, after Mr. Harriman and his associates brought it in 1898, and the subsequent dealings with its securities, by which the four men who purchased the road got bonds at 65 and sold them in a few months for prices ranging from 85 to 95, which was the price paid by the New York Life Insurance Company for $10,000,000 of them, was brought out in New York yesterday when Mr. Harriman was put on the stand in the investigation the Interstate Commerce Commission is conducting into his operations.

Not only were vast profits reaped on the sale of the bonds, but they also took some of the proceeds of these bonds immediately after they had acquired 97 per cent. of the road's stock, and paid themselves on that stock an extra dividend of 30 per cent., or nearly $7,000,000. The Alton was then, and had been for sometime, paying 8 per cent. It did not apparently have any surplus account out of which to pay this extra dividend when Mr. Harriman and his three friends got it, but to justify the dividend it seemed they "discovered" that the books of the company were wrong; that $12,000,000 which had been lost by the old stockholders should really be capitalized, and so the capital account was increased so much.

The evidence showed that $82,000,000 was paid for the Great Northern and Northern Pacific stock and sold for $145,000,000.

Harriman was one of the syndicate that bought the Chicago and Alton for $40,000,000, selling the bonds to themselves at 65 cents on the dollar and immediately reselling $10,000,000 to the New York Life at 95. Out of the proceeds a 30 per cent. dividend was declared.

They doctored the books of the Alton and added to the capitalization of the company $12,000,000 which the former management had charged to betterments.

It was averred by the witness the purchase of $45,000,000 of the Baltimore and Ohio stock from the Pennsylvania was "a clean transaction."

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by E. S. Leadbeater, & Sons, druggists.

Many sufferers from nasal catarrh say they get splendid results by using an atomizer For their benefit we prepare Ely's Liquid Cream Balm. Except that it is liquid it is in all respects like the healing, helpful, pain allaying Cream Balm that the public has been familiar with for years. No cocaine nor other dangerous drug in it. The soothing spray relieves at once and cure is certain. All druggists 75c, including spraying tube, or mailed by Ely Bros., 56 Warren Street, New York.

FOR OVER SIXTY YEARS.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Guaranteed under the food and drugs act, June 30th, 1906. Serial number 1098.

TUESDAY EVENING, FEB. 26, 1907.

OCCASIONAL incidents show that all conscientious people have not passed off the earth, and in these days of wholesale thievery, the heartlessness of trusts, and the acts of plunder recorded in high and low life incidents like the following are calculated to cause us to thank God and take courage. We are told that Representative Ernest M. Pollard, of Nebraska, is trying his level best to get rid of $1,661. "You take it," Sergeant-at-arms Casson said to Mr. Pollard. "It is part of the unearned salary that goes with the job. Congress has appropriated it and, even if you were not elected, it is yours." It proved, however, to be a thorn in Mr. Pollard's pillow and he took the money back to the sergeant-at-arms. "I'm not entitled to this money and want to turn it back," he said. "Not to me," Mr. Casson said. "I don't want it. You've taken it and now you've got to keep it." He finally appealed to the ways and means committee, which subsequently reported a bill for the relief of Mr. Pollard, but it is supposed the session will end before the bill can be taken up for final action. Another case similar to the above comes from Kankakee, Ill. Philip Coutre, a painter of that place, having had his pay raised from $35 to $50 a month and failing to see how he could correspondingly better his work or do proportionately more he became insane while contemplating his changed condition, and has been sent to an asylum. Coutre could not understand the raise, as he had not asked for any increase in pay, and argued with his friends that he could not do any better work for $50 than he had done for $35 a month.

THE Chicago papers report that a man summond for jury duty frankly declared to the court that he was a union man and would give a union man on trial the best of it. Justice Cavanaugh said to him, emphatically: "You have no other friend who is as good a friend to you as the law," and continued:

It made provision for you before you were born; it enables you to wear that coat on your back, those shoes on your feet, or some one stronger than you would take them from you. The law makes it possible for you to earn wages; without it you could not collect your wages even though you earned them. It is a guard over your house; it stands guard over you, your property, your reputation, your life, and if you are sick and friendless it will take care of you and look after you. If you are dying it will protect your body. A man may be friendly to labor unions—yes, but no labor union has ever been the friend to you that the law has been. There is no "organization" that has been the friend to you that the law has been. You ought to have respect for the law above any other institution.

In commenting upon the above the New York Tribune says: "This is said with special force in Chicago, where the trial of union labor cases is peculiarly difficult. But it is well put, true everywhere, and notably applies to that common question, the duty of union men in the militia during labor troubles."

A dispatch from Boston says that the substitution of lectures for smoke talks and dances and the elimination of politics are some of the reforms within the Ancient Order of Hibernians demanded by the national board in a circular just issued to the members of the organization. As to politics, the document says once the organization becomes the tool of selfish individuals its work of preserving the ancient traditions of the Irish race is bound to be crippled. The members of the board show themselves to be wise in their day and generation.

IN THE House of Representatives yesterday when Mr. John Sharp Williams made a logical argument against the proposed ship subsidy bill and showed how Speaker Cannon had strangely changed front on the question, he was answered by Mr. Payne, the republican floor leader, who advocated the bill "because it was a republican measure and Rooseveltian in its purport." Such arguments are good enough for republicans and also show what complete dominion the President has over them.

From Washington.

[Correspondence of the Alexandria Gazette.

Washington, Feb. 26.

Official denials that General Paredes, the revolutionary leader who landed a small force of men from French Guiana territory across the Venezuelean frontier, was shot, together with 17 of his followers, by government troops, was received at the Venezuelan legation, today, in a letter from Dr. Paul, Secretary of State, under date of Caracas, February 16. This letter, in which the tragic ending of General Paredes is described, but not in detail, shows clearly, according to the legation officials, that Paredes and his followers met their death in a fight for liberty while under imprisonment, and were not placed against a wall and shot by the soldiers, which would have been a violation of the military regulations as well as the civil laws of that country.

Secretary Taft, by direction of President Roosevelt, had approved Governor Magoon's arrangement to settle with the Roman Church the purchase by the Cuban government of the church property now being used for public purposes in Havana and elsewhere in the island. In Havana the property includes the custom house and wharves, the University of Havana, the High School, the Academy of Science and other buildings. Governor Magoon has decided that the Cuban finances will be able to stand a payment down of $1,000,000 and monthly installments of $100,000 until the entire $1,932,143.99 is liquidated.

"Her allegations are as false as false can be." This is the answer of Senator Platt of New York to statements made in the suit for divorce against him brought by Miss Mae Wood in which she named no less than sixteen corespondents. Senator Platt admitted that he knew of the suit having been filed and said that his answer had also been filed, the latter being a general denial. In view of the fact that the case is now in the courts he did not care to discuss it further in the press.

After the Cabinet meeting today, Secretary Taft announced that the administration had decided not to accept any of the bids for the construction of the Panama Canal by contract. A statement on the subject will be issued from the White House later. The administration will not readvertise for bibs for the present, and may decide later to build the canal without letting out the work under contract.

Ellen Puckett, recently convicted of forgery, was sentenced to five years in the penitentiary this morning by Judge Barnard.

The State Department received word by cable today from Santo Domingo that the amendment made by the Senate to the Dominican treaty, making it unnecessary for the U. S. Senate to confirm the appointment of the American collector of customs for Santo Domingo, is acceptable to that country. It now only remains for the Dominican Congress to ratify the new treaty to make it effective.

The Senate committee on military affairs today decided to postpone further hearings in the investigation into the Brownsville shooting case until Thursday, March 7th.

Corporals Wathington and Miller, of Company C., and Coltrane, of Company B., were examined by the committee today but their testimony followed the lines of that given by preceding witnesses.

Because of inability to get a quorum there was no meeting today of the Senate committee on inter-oceanic canals and the nominations of the Panama canal commissioners again went over without action.

Fifty-ninth Congress.

Washington, Feb. 26.

SENATE.

The action of the leaders of the Senate in forcing the holding of night sessions has had the result desired by them. Legislative wheels were given an accelerated speed that passed in one day three big appropriation bills, over which prolonged debate was feared.

Immediately after the meeting of the Senate today, conference reports on the naval and fortification bills were agreed to without comment and the sundry civil bill, the last supply measure but one, was taken up.

The Senate agreed to an amendment to the sundry civil bill, appropriating $3,000,000 for a building for the Departments of State, Justice and Commerce and Labor and providing for the condemnation of necessary land on the south side of Pennsylvania Avenue.

The following amendments for steamers for the revenue cutter service were also agreed to: Puget Sound $225,000; Savannah, Ga., $200,000; New Bedford, Mass., $175,000 and New Orleans, $50,000.

The sundry civil was passed. It carried over $14,000,000.

The Senate took up the Aldrich financial bill.

HOUSE.

Mr. Cannon read a lecture to the House today shortly after it convened, on how members should conduct themselves during the sessions. "If for the remainder of the session members will give attention and the House keep in order we will transact business more intelligently and twice as rapidly," said he.

For five minutes the members were quiet and then they were as noisy as ever.

The Senate bill, from the joint committee on printing, reforming Congressional printing with the hope of saving a quarter of a million dollars, was passed.

The conference reports on the fortification bill and on the omnibus revenue cutter bill were adopted.

The five hours debate on the Littauer "mail subsidy," or as its advocates despise to hear it called, "the ship subsidy bill," was opened at 12 o'clock by a short speech by Mr. Grosvenor. Mr. Littauer occupied three quarters of an hour in defense of the bill.

Ship Subsidy.

As stated in the Gazette of that day a rule was brought into the House yesterday providing for a final vote on the ship subsidy bill on Friday. The rule was adopted by a vote of 158 to 122, 24 republicans voting with the democrats in opposition to the rule.

Mr. Williams, the leader of the minority, opposed the adoption of the rule, and, speaking of the attitude of Speaker Cannon, said: "There was a time when you yourself, Mr. Speaker, waxed eloquent and earnest in opposition to legislation like this.

"In those days you were a Samson in conflict and Solomon in council. Today Samson is shorn of his locks and Solomon has grown fond." Democracy, he said, was against this measure. It was in the interest of the rich and against the poor; of those who had as against those who had not. He said it was hypocritical in its provisions.

Mr. Williams thought it worse than the tariff, because the latter professed a virtue, while this was a naked special privilege. "It is a class legislation naked, unblushing, running wild." He said he was willing to let stand a speech in opposition made sometime since by Speaker Cannon. Mr. Payne, of New York, advocated the rule and the bill, because it was a republican measure and Rooseveltian in its purport.

Mrs. Susan R. Seaton, wife of the late Townsend Seaton, formerly a prominent farmer of Loudoun county, died at the home of her nephew, in Washington, yesterday, aged 80 years. She was a sister of Capt. Wm. E. Garrett, of Leesburg, a prominent lawyer.

News of the Day

Fear of an uprising of malcontents in Santa Clara province is felt by the American officials at Havana.

H. U. Mudge, sr., vice-president of the Rock Island Railroad, says organized labor is largely to blame for accidents.

Five thousand persons were driven out into the snow by a fire which destroyed the new Irving Music Hall, in New York city, yesterday, and spread to adjoining tenements. No one was injured.

Leslie M. Shaw, Secretary of the Treasury, who will retire from the Cabinet of President Roosevelt on Monday, March 4, is to become the president of the newly organized Carnegie Trust Company, of New York city, and instead of being a leading politician of Iowa, will become a New Yorker engrossed in finance.

Col. O. G Staples, proprietor of the National Hotel and the Riggs House, in Washington, will begin the erection within the coming year of a large modern hotel, to cost $1,000,000 or more, at the southeast corner of Fifteenth street and Pennsylvania avenue. This corner, which is the site of the Hotel Regent, is already owner by Col. Staples.

Disasters caused by avalanches continue to be reported from different parts of Norway. A cablegram from Opstryn, in Nordfjord, records the destruction of the Tunold farmstead, with the loss of eight lives. The Koletak homestead, on Gedrangerfjord, also was overwhelmed, and 10 persons, including women and children, were buried beyond hope of rescue.

Hickory Inn, at Hickory, N. C., one of the largest hotels in the western section of the State, was destroyed by fire early yesterday. When the fire was discovered it had made such headway that escape by the stairway was impossible for those on the second and third floors. Of the 40 guests in the hotel about 20 were forced to jump from second and third story windows. Five or six were badly injured by jumping, one, a traveling salesman, probably having his back broken.

Suit has been brought in the Supreme Court of New York city by Miss Mae Catherine Wood against United States Senator Thomas C. Platt and there is every likelihood that it will create a sensation when it comes trial. "I instituted divorce proceedings on December 27 last in New York against Senator Platt through my attorney, Mr. O'Flaherty. I have named 16 women as co-respondents. The trial will disclose crime of various kinds, including robbery and perhaps attempted assassination."

Otto Goldschmidt, the husband of Jenny Lind, the celebrated singer, who died in London in 1887, died yesterday at the age of 78. He married Miss Lind in 1852, during her American tour, on which he was her accompanist on the piano. Mr. and Mrs. Goldschmidt took up their residence in England in 1858. He was professor in the Royal Academy of Music in 1863, was made vice principal in 1866, was first musical director of the Bach choir in 1876 and resigned in 1885. He edited, in conjunction with Sterndale Bennett, "The Chorale Book for England."

As was stated yesterday, the Dixie Flyer, over the Georgia Southern and Florida Railway, from Macon to Jacksonville, dashed into a defective switch three miles south of Unadilla, Ga., while running fifty miles an hour. The accident occurred at 3 o'clock yesterday morning. The engine and five cars were smashed to splinters. Engineer Daniel C. Farmer, of Macon, was crushed to death. Fire starting in the express car consumed the wreck, except the first-class car and the sleeper for Jacksonville. No passenger was hurt. Fifty pouches of southern mail and a lot of express matter were burned.

George von Lengerke Meyer, former Ambassador of the United States to Russia, who has been appointed Postmaster General, in President Roosevelt's cabinet, arrived in New York today from Europe on the liner Kaise in Augusta Victoria. He will proceed directly to Washington.

According to advices received in London President Roosevelt will shortly receive an autograph letter conferring a royal order upon him from the Negus, Menelik, of Abyssinia.

CONGRESSIONAL.

Three appropriation bills were passed yesterday in the Senate, the agricultural the postoffice, and the pension bill, carrying a grand total of $965,000,000.

The Philippines Agricultural Bank bill also was passed.

In the agricultural bill an amendment was agreed to, requiring the packers to put the date of inspection and canning on all their meat products.

At its session held last night, the Senate ratified the treaty with Santo Domingo by a vote of 43 to 19.

After an exceedingly animated discussion, during the course of which Chairman Babcock of the House District committee was accused of bad faith and of breaking repeated promises to his colleagues, the House by the decisive vote of 159 to 86 killed the bill to permit the local traction companies to build their lines to the union station. The riders on the bill—the provision to extend the smoke law to railroad locomotives and the broad-tire measure—were likewise executed. The Senate agreed to the Beveridge amendment requiring beef packers to put the date of inspection on the labels.

The House passed several District bills.

The House adopted a rule providing for a vote on the Littauer substitute ship subsidy bill next Friday at 3 p. m. Five hours' general debate, which will begin today, is to be allowed. After that the bill will be subject to amendment and will be considered under the five minute rule, giving way, however, to appropriation bills, conference reports, and motions to suspend the rules.

A rule granting the ship subsidy bill the right of way until Friday was adopted.

After acting favorably upon several minor measures, the House at 6:20 o'clock adjourned until today at 10 o'clock.

The Senate yesterday took an effective step in the direction of stopping many of the abuses connected with the public printing. A bill was passed amending the laws relating to the printing of public documents, in accordance with the recent recommendations of the joint committee.

The House will pass the same measure before the expiration of the session, and many thousands of dollars will be saved annually on this item of public printing.

THE STROTHERS TRIAL.

As stated in the Gazette of that day a jury from Shenandoah county was secured yesterday for the trial at Culpeper of Philip and James A. Strother charged with the killing of W. F. Bywaters.

Acting Prosecuting Attorney Keith outlined the case of the commonwealth against the Strothers. Briefly he went into the history of the case, and he said that the state would "produce witnesses to prove that Bywaters was killed during a quarrel in the room, and not while he was attempting to escape from his girl-bride, as claimed by the defense.

"We will show," said Mr. Keith, "that Bywaters was only too willing to marry the girl, and that in doing so he made full reparation. We will also prove that Bywaters could not have been shot while on the roof, and that from the discovery of several bullets imbedded in the interior of the house, it indicated that the shots were fired by the Strother boys inside the house.

"There could not have been much animosity toward Bywaters, so far as the marriage to Viola Strother is concerned, because after the ceremony was performed the brothers of the girl declared their friendship for him by shaking his hand. It was something else which led to a brawl during which Bywaters lost his life, and it will be the endeavor of the state to prove that the young man was killed in cold blood by the Strother boys without any provocation whatever."

Mr. Jeffries addressed the jurymen immediately after the remarks made by Mr. Keith, and for more than an hour he held the attention of the court. Mr. Jeffries went into all the phases of the case and made no attempt to conceal any of the revolting features leading up to the killing. He drew a picture of the life of the young woman, who is now in a serious condition at Rotherwood; of her love for the man who had not only brought disgrace upon her, but her family, and of her pitiable plea that his life be spared when in desperation her brothers sought vengeance for the wrong that they claimed Bywaters had done.

In his review of the history of the case Mr. Jeffries went deeper into the facts than was done at the coroner's jury, and he brought to light for the first time the little drama which was enacted in the room of Mrs. Bywaters just prior to the killing, when, with tears in her eyes, she begged that the life of her husband be spared.

One of the most surprising features of the statement of the defense to the court was the great stress laid upon the "unwritten law," and the objection which was made on the part of the counsel for the prosecution. The plea on behalf of the Strother boys showed plainly that the attorneys for the defense intended to play a strong card in the opening statement to the court, and so well fortified were they that not one of the objections made by Mr. Keith, acting prosecuting attorney, was sustained by Judge Harrison. Mr. Jeffries called particular attention to the fact that the Strother boys believed that a member of their family had been wronged, and as the dead man did not attempt to repair in the fullest measure this wrong, the brothers of the girl were justified in the action they took.

"Despite the intense love that the girl entertained for Bywaters," continued Mr. Jeffries, "he treated her like a brute. Why, even in Washington, when Viola Strother was at the point of death, he came to Culpepper on some trivial errand, leaving her alone without the proper attention. Continued absence from her home excited the suspicions of the brothers and sisters of the girl, and, learning that he was being hunted, Bywaters brought the girl back to her home. In her condition she begged the man to marry her, but he refused. Yet, let me tell you, the girl never betrayed him. When she returned to Rotherwood and was accused of wrongdoing she positively denied the crime which her family attempted to fasten upon Bywaters, and, in her feeble condition, she shielded him constantly. The truth, however, became known, and both Bywaters and the girl finally made a full confession. The confession nearly cost Bywaters his life, for French Strother, one of the brothers, upon learning the truth, threatened to kill him on the spot. But Bywaters pleaded for his life and the girl, to show her great affection for the man who had wronged her, interceded and prevented Bywaters from being shot by her enraged brothers.

Mr. Jeffries then told of how, after promising to marry the girl, Bywaters, under one pretext or another, had postponed the wedding. So intent, however, was Bywaters in having nothing to do with the girl that he pretended he was compelled to go to Culpeper to have the marriage announced.

This move was blocked by the Strother boys, and they swore they would kill him if he left their sister in her precarious condition. Bywaters then requested that he be allowed to return to Culpeper and announce the marriage to his mother. This was granted upon condition that he be driven to town by Philip Strother. He refused, and again he was told that if he attempted to leave he would be killed. He was killed, as you are well aware, but it was his fault. He had wronged a home, ruined a young life, but aside from all this he was forgiven, provided he stood by his marriage. He failed and paid the penalty.

Before adjournment several witnesses were examined by both the prosecution and defense, including Dr E H. Lewis, coroner for Culpeper county, who held the inquest over the body of Bywaters at the time of the shooting. By means of a wax figure brought into court Dr. Lewis described minutely the 13 wounds which were received by the dead man, and in order that the jury might more fully understand just where the bullets entered the body and the number of shots fired the clothes which Bywaters wore were also produced in court.

Before court adjourned in the afternoon it was about agreed that Mrs. Bywaters, widow of the dead man, would be called as a witness today. It was announced later, however, that her condition will hardly permit her appearing in court today, and it is not likely that she will take the stand before Wednesday.

Culpeper, Va., Feb. 26.—When court convened this morning W E. Coons, county clerk, went on the witness stand to testify to the procurement of a license for the Strother-Bywaters marriage on December 15. Witness said he heard James Strother, who was with Bywaters when the license was obtained, say to his future brother-in-law, "I mean business." Clerk Coons said the two wanted to hold a conference before obtaining the license. He let them occupy his room. Witness said Bywaters remarked: "I'm going to be married at 4 o'clock."

Rev Josiah Ware told of being summoned to the Strother home and later performing the marriage ceremony. The minister said he was told the bride-to-be was ill in bed with typhoid fever, and that the couple had been engaged a number of years. The bride was given away by her brother James Bywaters gave the bride a wedding ring. The minister said the license was handed him by James Strother.

He said he saw the Strother boys extend the hand of friendship to Bywaters and he was impressed with the idea that all was harmony.

The minister said Bywaters was leaning over Mrs. Bywaters kissing her when he left the room.

L. B Crump said he was summoned to the Strother home after the shooting. Witness said Philip Strother admitted that he killed Bywaters and said he would do the same thing over again. James said: "I want you to understand that I did some of that shooting. I did my duty."

Lamon said he found Bywaters alive on the roof and told of the death struggle and calls "mother" and water.

The father of Bywaters and James Strother wept as the story was told.

"After the shooting Jim leaned over and kissed and hugged Viola," said the witness. "She cried, and said, 'Jim, I lied like a hound dog to you, but I will tell all, all.' She wrung her hands and said. 'I can never lift up my head again.' Jim said, 'no you can't live in Culpeper after this.'"

Today's Telegraphic News.

The Thaw Trial.

New York, Feb 26.—Court was called to order at 10:40 o'clock, Thaw and all of the attorneys being in their seats at that time. The defendant appeared to be in particularly good spirits and busied himself with a portfolio and some letters which lay before him. Evelyn had previously denied the Hummel affidavit, and the first witness placed on the stand was Abe Hummel, the debarred attorney.

"Do you know Evelyn Nesbit Thaw?" Hummel was asked.

"Yes."

"When did you first meet her?"

"In 1901 or 1902."

"Where?"

"I do not remember."

"You met her before you saw her in your office?"

"Yes," said the witness.

"Did she come to your office on October 27, 1903?"

"It was the latter part of 1903."

"I hand you the people's exhibit 76. Does this document refresh your memory?"

"Yes." [The document was a photographic copy of the affidavit Evelyn is alleged to have made in Hummel's office, telling of Thaw's alleged cruelty and exonerating White.]

Jerome was checked for the time being, however, in contradicting Evelyn's version of the affidavit she had made to Hummel by Delmas, and after a few questions he withdrew the lawyer from the stand.

Abraham Snydecker, one of Hummel's assistants, was asked only if Evelyn signed a paper in his presence in the famous Madison Square Garden tower the night of October 27, 1903, and he said yes, and was excused.

Evelyn Nesbit Thaw was then called to the stand and a leather bound, gilt-edged book handed to her to examine the writing in it.

"Did you write all of it?" asked Jerome.

She spent ten minutes reading the book and finally said: "I think I did."

"Is it a diary kept by you in 1902?" asked Jerome.

"It will show for itself what it is," put in Delmas.

The exhibit was handed to Delmas.

After Delmas had finished his reading the diary was handed to Jerome, who skipped through it, reading excerpts which tended to show the state of mind of the writer at the time she was at school at Pompton in the fall of 1902.

The extracts were of a flippant nature, and the diary abounded in broken sentences.

Jerome concluded his cross-examination of Evelyn at 12:40, and the court recessed for luncheon at 12:45 p. m.

Court reconvened for the afternoon session at 2:06 and Evelyn was recalled by the State.

The Harriman Investigation.

New York, Feb. 26.—The Interstate Commerce Commission investigation into Harriman's railway deals today threatens the same effect upon railway interests as the Armstrong investigation had upon insurance interests two years ago.

Wall street today reflects the situation in quoting giltedged stocks at record low prices. Even stock like Chicago, Milwaukee & St. Paul, which sold as high as 198 last fall, is down to 143 1-2, although the St. Paul is not directly involved in the Harriman exposure. Southern Pacific Harriman line, is selling at 91, the lowest prices of the year.

The main points which Harriman has revealed with disastrous effect, are typical of all stock watering operations.

E. H. Harriman was recalled to the stand this morning. He will conclude his testimony early today.

The Recent Sub-treasury Robbery.

Chicago, Feb. 26.—The mysterious theft of $173,000 from the sub-treasury continues to baffle the authorities. The report that the books show a false entry for $173,000, which would quickly identify the thief, is denied by the officials. It is known that the money disappeared from the cage of the assorting teller, who frankly reported the shortage a week ago. The authorities are convinced the robbery was committed by an employee, and all are subjects of suspicion. The treasury rolls show forty-three employees there, besides Assistant Treasurer Boldenweck. Boldenweck still clings to the theory of a clerical error. District Attorney Sims, the secret service men and the Washington authorities say there is no doubt the money was stolen.

Narrow Escape of Passengers.

New York, Feb. 26.—Scores of passengers in a Second avenue elevated train had a miraculous escape from death at the Chatham square station today. While on the cross over from the Second to the Third avenue lines the first car left the rail, and hurdling the open space between two tracks, formed a bridge. With less momentum the car would certainly have plunged into the street below. As it was the train crashed into the platform of the station, and demolished a portion of it. Save for injuries from flying glass, however, no one was seriously hurt.

A Husband's Confession.

Denver, Col., Feb. 26.—D. E. Wright the Benton Harbor, Mich., traveling man, whose wife and child died here of poisoning yesterday, and who is himself suffering from the effects of some deadly drug, has admitted, the police say, that he took the lives of his wife and little one, following by swallowing the same dose himself, but excercising care not to take enough to kill him. According to the police, he quarreled with his wife, and finally gave her and her child the poison that he might elope with Stella Good. The Good woman's arrest has been ordered.

Remarkable Decision.

Rome, Feb. 26.—Probably the most remarkable court decision on record in a bigamy case has just been handed down by a court at Perugia which acquited Charles Balliori, a tailor, on a charge of having two wives on the ground that he has two hearts. Four physicians testified that Balliori possesses two hearts, and the court at once decided that this was ample reason for him to marry twice.

Evelyn Thaw's Childhood.

Pittsburg, Pa., Feb. 26.—C. J. Holman, stepfather of Evelyn Nesbit Thaw, after talking over the Thaw case with Mrs Holman, said today: "From the time Evelyn was 15 months old she went to Sunday school in Tarentum. When the family moved to Allegheny, she attended the Sunday school of the Cavalry Methodist Episcopal church for three years. After her father's death, her mother moved to Cedar Avenue, Allegheny, and Evelyn was sent to the Lutheran Sunday school. Subsequently Mrs. Holman moved to Suburban while living there Evelyn attended a Baptist Sunday school. In fact, the girl went to Sunday school regularly as long as her mother had control of her. I will commence several libel suits on different papers when the trial is over. The mother did not leave her daughter in charge of any man at any time. The public has heard only one side of the story. Besides, Jerome has no affidavit from Mrs. Holman."

New York Stock Market.

New York, Feb. 26.—The action of the stock market during the first hour was far better than had been generally expected. There were some declines at the opening in the first few minutes, but there was no such rush to sell as had been feared. Buying orders came in large volume.

Thieves Get away with Church Relics.

Thieves Saturday night entered the famous Church of St. Paul, at Treves, Prussia, through the vault of the martyrs, broke open the tabernacle and stole two monstrances, one of which Napoleon took from the Maximilian Monastery and gave to the Church of St. Paul. The thieves also took a golden cup and other rare jeweled vessels used in the church service and valued at many hundreds of thousands of marks. Some of the articles stolen dated back to the seventh century. No clew to the identity of the thieves has been obtained.

The decision by Justice Gould in the Equity Court at Washington, giving Charles Chester Bassett, of the Geological Survey, a divorce from his wife, Fanny Rice Bassett, was held valid in the court of Omaha, Neb., today and Mrs. Bassett's suit dismissed.

The March number of the American Magazine, which has been received from its publishers in New York, contains far-reaching and up-to-date articles and most excellent fiction. Miss Tarbell relates the story of the "Tariff Under Grant." Josephine Dasham Bacon's article is entitled "We and Our Neighbors." "Athletics Among the Blind" is described and the biography of "The Middle American" is recorded. "An Argument With a Millionaire" is reported. George Madden Martin contributes a story and Marion Crawford proceeds with his serial.

Woman's Struggle with a Tramp.

Rural telephone users all over Wayne county, Iowa, on Sunday, heard the screams of Mrs. George Stech while she struggled desperately with a tramp, who attacked her in her home.

Men in the homes of her nearest neighbors who hastened to get out teams and rush to her assistance were too late to save Mrs. Stech or capture her assailant. Posses with bloodhounds are searching the country side, and there is a chance that the tramp will be lynched if captured.

Mrs. Stech says that the tramp came to her door and demanded admittance. She was alone in the house with her three-year old girl, and, frightened, she closed the door in the tramp's face and locked it. The man at once commenced to break down the door. Mrs. Stech carried her little girl to a bedroom and locked her in. She then ran to her telephone and rang to call for help, but before she could speak the tramp had forced his way in and seized her. She dropped the receiver, leaving the telephone open, and the central operator heard her first scream.

For half an hour the woman struggled desperately with her assailant all over the living room. Each time she found herself near the phone she screamed for help. In nearly every home on the system to which her phone belonged her screams were heard.

The first of her neighbors to arrive found Mrs. Stech bound and unconscious. The tramp had disappeared.

Says He Is Sane.

In behalf of John Armstrong Chanler, formerly of New York, a petition was yesterday filed in the Supreme Court of the United States—a writ prohibiting the New York court or their officers from molesting or arresting him while on a contemplated visit to that State, which Mr. Chanler desires to make in prosecution of a suit which he has instituted against Thomas F. Sherman, of New York. Chanler was adjudged insane in New York in 1897 and Sherman was appointed guardian of his estate, which is estimated to be worth $1,000,000. Chanler escaped from the asylum at Bloomingdale and now resides in North Carolina. He asserts his sanity and desires to take legal steps to recover his property, and asks for the protection of the federal courts against arrest by the New York authorities while in that state. A brief was submitted in behalf of Mr. Sherman in opposition to the petition. The court took the matter under advisement.

Railroad Signals

Recently a new system of signals to prevent head-on and rear-end collisions, open switch, open drawbridge, broken-rail and landslide accidents, was tested on the Richmond, Fredericksburg and Potomac Railway. The system was shown by the Richmond Signal Company.

The signals are worked automatically and electrically by the movement of trains, and it is the only single-track block system ever attempted in America that will give three positions from one mast. There is no human mind connected with the operation of the signals, and it is claimed that no accident of any kind can possibly happen if the signals are regarded by the engineers.

In the case of a probable collision it takes two trains to operate the system; whereas, in the case of accidents, one train will operate.

Capt. William Thomas West, division superintendent of the Southern Railway, died at his home in Richmond last night of heart disease. He was a native of Pittsylvania county.

News has been received of the death, near Upperville, Loudoun county, of Dr. W. J. Kendall. He was forty-five years of age.

Local Matters.

Sun and Tide Table.

Sun rises tomorrow at 6:37 a. m. and sets at 5:50 p. m. High water at 7:19 a. m. and 7:34 p. m.

Weather Probabilities.

For this section rain or snow tonight. Wednesday rain; warmer tonight; light to fresh easterly winds.

Funeral.

The funeral of the late W. Frank Lambert will take place tomorrow, Wednesday evening, at 3 o'clock, from St. Paul's Church. The services will be conducted by Rev. Thomas Semmes, of Richmond, assisted by Rev. P. P. Phillips, rector of St. Paul's, and the pallbearers will be Messrs E. L. Daingerfield, G. L. Boothe, H. R. Burke, L. Stabler, Carroll Pierce, C. J. Deahl, R. E. Knight and Dr. W. M. Smith.

As stated yesterday Mr Lambert was vice president of the Citizens' National Bank and a director of the Alexandria Water Company. In addition he was the assistant treasurer of the Lambert Pharmacal Company of St. Louis, treasurer of the Henderson Lumber Company of West Virginia, first vice president of the Virginia Bankers' Association, and was largely interested in the Wagner Oil Company of Indiana and the traction lines in Kansas City and Detroit. It is stated that it was almost entirely through Mr. Lambert's efforts that the Citizens' National Bank recently moved to the center of Alexandria, where it erected one of the handsomest banking houses in northern Virginia.

Mr Lambert was born in Alexandria August 23, 1865. He married Miss Byrd, of Prince George's county, Md., who survives him.

Police Commissioners.

A meeting of the Board of Police Commissioners was to have been held at the Mayor's office in the City Hall building last night, but no quorum appearing, those present adjourned to meet at 5 o'clock this afternoon. It is understood that the commissioners will ask the City Council to act favorably upon the petition of the members of the police force for an increase of pay. The petition was presented to Council several weeks ago. The policemen call attention to the fact that all the necessaries of life have advanced in price, and that in order to meet present conditions they should have increased pay.

Corporations May Lose Charters

There is danger of many of the corporations of the State forfeiting their charters by delaying payment of registration fees and franchise tax. This tax is due and payable prior to March 1 and of the 4,500 corporations existing today there are more than one half delinquent. A great many concerns doing business outside the State are chartered in Alexandria and there are any number in the northern part of the State and the delinquents are to be found in each city. There are no penalties provided by law, the charters expressly providing that all taxes and fees are to be paid in February or the charter becomes null and void.

Electric Lights.

The committee on light, the Mayor and Superintendent Darrah, of the Alexandria Electric Company, had a conference last night concerning the new electric lighting of the city and the turning over by the city of the old plant. The matter will probably be presented to the City Council. The committee on streets also met last night and decided to employ an electrician from Washington to examine the poles, wires &c., of the new company and to assist in drawing up rules under the contract between the city and electric company for the operation of the new plant.

Preparing for the Season.

The frame annex to the buildings of the Mutual Ice Company is virtually completed. The structure is situated on Union street, near Cameron. A chute has been constructed from the new building almost to the end of the Cameron street pier, the dock on the north side of which is being dredged in order to accommodate large schooners which will bring ice from Maine to the Mutual Company. The schooner Clara Donnell, loaded with ice for this company, sailed from Maine last Friday, and the schooner Estell Funey is now loading for this port.

Engineer Killed.

Charles H. Crain, aged twenty-eight years, assistant engineer on the Norfolk and Washington Steamboat Company's steamer Norfolk, which arrived at Norfolk yesterday morning from Washington, was shortly after 1 o'clock yesterday afternoon struck on the head by the crank of his engine, death resulting in a few minutes. Crain was alone in the engine room at the time of the accident. Crain's home was in Norfolk, and he is survived by a wife, who became his bride a year ago.

Continue Cold Weather.

The mercury in the thermometer ascended from about 22° at 7 o'clock yesterday morning high into the forties by noon, and the snow which fell Sunday had virtually passed away early in the afternoon. Later, however, conditions became colder, and another frigid night followed. The mercury at an early hour this morning stood at about 23°. Considerable floating ice in the river interferes with navigation by sailing vessels.

The Circuit Judgeship.

Mr. John M. Johnson, of this city, who is a candidate for Judge of the Circuit Court, has received the endorsement of most of the members of the Alexandria bar, while many representative citizens are signing a petition for his appointment to the position, should Judge Chas E. Nicol resign. Should the position become vacant, Gov. Swanson will make the appointment pending the election by the Legislature.

Sinking of a Tugboat.

The tugboat Eugene, belonging to W. A Smoot & Co., of this city, was sunk in Piscataway creek yesterday evening. The Eugene had several sand barges in tow at the time, and the floating ice forcing the barge on the tugboat sunk it. The latter settled in comparatively shallow water, and can be raised with but little difficulty.

The City Council meets tonight.

The condition of Mr. John T. Sweeney, who has been confined to his home for the past few months by illness, has improved.

Mr. William L. Hoy, who has been ill for several weeks past, is improving.

Mr. John T. Boyd is still confined to his home by illness.

Mr. W. H. Lambert, who was spending the winter in St. Louis, has returned to his home in this city, having been called by the death of his son, Mr. W. Frank Lambert. He was accompanied by his son, Mr Arthur Lambert.

Rev. Thomas Semmes, of Richmond, is in the city, having been called here to conduct the services at the funeral of his intimate and long time friend, W. Frank Lambert.

Mr. Arthur Herbert, jr., who has been quite sick, is rapidly improving and expects to be out again in a few days.

The condition of Mr. William McA. Green, upon whom an operation for appendicitis was performed last Friday night, continues unchanged.

Mr. W. H Hunter, who had been confined to his home with the grip the past 10 days, is able to be out again.

Basketball.

Saturday night before about 300 people the Alexandria Athletic Association defeated the Vespers, of Washington, by the score of 22 to 5, and the A. A. A. Reserves defeated the Randolph-Macon College, of Front Royal, by the score of 14 to 5. Both games were won by the superior team work of the Alexandria boys. Summaries:

Family Theatre.

A large audience was present at the Family Theatre last night to witness this week's performance. The show this week consists of a programme of motion pictures and illustrated songs. The pictures of the wedding of Princess Ena of Battenburg and King Alfonso of Spain are undoubtedly the best seen in this city for a long time. They show the interior and exterior of the church the attempt to assassinate the king and queen and the automobile parade. The other pictures consisted of "The Bold Bank Robbery," "Post No Bills," "Dream of a Rarebit Friend," "The Custom House Search" and "Three American Beauties." The illustrated songs, sung by the popular baritone singer, Tom Moore, were beautifully illustrated and excellently rendered. The show this week is of a high-class order and well worth seeing.

Piles get quick relief from Dr. Shoop's Magic Ointment. Remember it's made alone for piles—and it works with certainty and satisfaction. Itching, painful, protruding, or blind piles disappear like magic by its use. Try it and see! For sale by E. S. Leadbeater & Sons, druggists.

The Late F. M. Wood.

The funeral of the late Francis M. Wood, who died at an early hour yesterday morning, will take place from Grace Church tomorrow afternoon Rev. Edgar Carpenter will conduct the services. Belle Haven Council, Junior Order United Americans, will attend the funeral. The interment will be in Union cemetery.

"Everybody Should Know"

Senator Bailey Exonerated.

By a vote of 15 to 11 the Texas Senate yesterday discharged the investigating committee which had been in session several weeks looking into charges against United States Senator Joseph W. Bailey.

The anti-Bailey following had offered a resolution instructing the committee not to bring in a report at this time, but to send a subcommittee to St. Louis to secure the testimony of H. Clay Pierce, of the Waters-Pierce Oil Company, and to embody such evidence in the committee's final report.

Adherents of Senator Bailey promptly offered a substitute that the investigating committee be discharged at once, without making a report, and that Senator Bailey be fully indorsed. After a rather heated debate, the substitute resolution was passed by a vote of 15 to 11.

Mr. Bailey's friends contended that every member of the legislature, as well as the general public, was fully acquainted with all the details of the evidence before the committee by reason of publication in the daily press, and that the Senate members could vote on the question now in an intelligent manner.

The issue of discharging the committee will probably come up in the House this morning.

The Thaw Trial.

District Attorney Jerome in New York yesterday completed his four-days cross-examination of Evelyn Thaw without making her contradict herself.

She has exposed her life that the accuracy of the story she told Thaw, and which is supposed to have made him insane, cannot be questioned.

"Abe" Hummel, the disbarred attorney, who was convicted of conspiracy in the Dodge-Morse scandal, has been called by Jerome in an effort to reflect on the credibility of the evidence given by Evelyn Thaw.

The wife has denied that she signed an affidavit or knowingly made charges of cruelty against Thaw.

Hummel will be asked to testify that the woman did make the allegations and sign the documents.

We have secured the "Travelers' Samples" of a large line of Bibles, Testaments, Prayer Books, and Hymnals, such as we have offered at this time for the past five years. They are technically "used" but as an actual fact have never been used and are only slightly rubbed from handling and from the wear of travel. The lot comprises more than a thousand dollars' worth, and includes Bibles in every type of binding known to the trade—cloth, leather, levant Morocco, real seal—and in all varieties. Text only, Reference and Teachers'. The same is true of the Testaments, Psalms, and Apocrypha, as well as the Episcopal Prayer Books and Hymnals—there being samples of every kind, from the cheapest leather binding to the most elaborate sealskin.

AUCTION SALES.

PURSUANT TO DECREE OF THE CIRCUIT COURT, of Fairfax county, Va., in the suit of Greenfield vs. Kerby, therein pending, the undersigned commissioner of sale will about 12 o'clock (noon), on

THURSDAY,

the 14th day of March, 1907,

offer for sale at public auction, in front of the Market House (Royal street entrance), in the city of Alexandria, Va., that track of land located in Mt. Vernon magisterial district, Fairfax county, Va., containing 85 acres (family graveyard reserved), being part of the old Samuel Collard real estate. The land is improved by dwelling house, barn and other buildings, and orchard. The land is of good quality and the location is exceptionally good, being a public road leading to Alexandria city and about 3½ miles south of said city. It is valuable for trucking or as a dairy farm.

Terms of sale:

One-third cash and the residue in two equal payments at six and twelve months from the day of sale, evidenced by the purchaser's interest bearing notes and secured by retention of title until the last payment is made.

THOMAS R. KEITH,
Commissioner of sale.

In the Clerk's Office of the Circuit Court of Fairfax county, Va.

I, W. E. Graham, Deputy Clerk of said Court, do certify that the bond required of the commissioner of sale in the above matter has been executed by him with approved surety. Given under my hand this 15th of February, 1907.

PEOPLE OF BRITTANY.

The Women Mostly Bald and the Men Mostly Drunkards.

"The women, not the men, go bald in Brittany," said a barber. "They go bald where it shows most—above the ears. Women, quite bald above the ears, are as common in Brittany as baldheaded men are with us.

"Brittany is a granite strewn, hilly, well wooded country in northwestern France, overlooking the sea. It is New Hampshire, with the sea added. The Breton peasants speak a language which resembles Welsh. They hate strangers, and they wear a peculiar costume.

"This costume is what causes the baldheaded woman. One part of it, the coif, or headdress, a cap of white linen, requires that the hair be drawn back very taut from the temples. Drawn back thus, as taut as it will go, it begins to disappear at the age of twenty-five, and by the time she is thirty-five or forty the Breton peasant woman looks as if she were the victim of some horrible disease, for, from her temples to well behind her ears, she is as bald as an egg.

"The men, on the contrary, are never bald. For one reason, they work bareheaded. For another, they belong to the low, animal type of man that preserves a head of thick, coarse hair to the end. They are a nasty lot, the men of Brittany—drunk every day or two, putting all the work on their wives, shouting ribald insults in the Breton tongue at tourists."—St. Louis Globe-Democrat.

THE BUTTE HILL.

Where Fortunes Were Made and Spent In a Day.

When Daly had acquired the properties surrounding the Anaconda, he opened up the Butte hill. One must have a vivid imagination to picture to himself the growth of Butte from that time on during Marcus Daly's life. Fortunes were made and spent in a day. An army of men descended into the mines daily to strip them of their treasure, huge forests were despoiled of their timber to stull and shore up the excavations and protect the earth above, for these copper veins are often 100 feet wide. Immense smokestacks began to vomit their clouds of smudge from scores of furnaces scattered over the hill; the moan and clank of huge pumps could be heard in the depths forcing the water to the surface; the pound of hammers and the steady impact of drills sounded everywhere, while the earth trembled and bellowed with distant underground explosions. Great hollows, like cathedral naves, were scooped out, where the treasure had lain in the rock ribbed earth. Horses and mules were blindfolded and lowered into the mines—where their hides, like the gray beards of the old miners, soon took on the greenish color of the copper which saturates everything below the surface. The Butte hill soon became a veritable underground city.—C. P. Connolly in McClure's Magazine.

Values of Fats and Oils.

There is a remarkable misapprehension, particularly among many persons of the more intelligent class of our people, says the Dietetic and Hygienic Gazette, as to the food value of the fats and oils. The muscle or red meat is a valuable source of proteid, but the excessive consumption of proteid invites various diseases which figure very prominently in the causes of death. The fats and oils increase our resistance against cold and some of the causes of disease. The health of many so called scrofulous children would be improved by teaching the to eat more fat. Fats in abundance constitute a very essential part of the dietary of the tuberculous patient. A larger proportion of the fatty elements of foods would go a long way in adding to the robustness of many persons and saving them from the subsequent development of tuberculosis.

Buttons and Women's Clothes.

"Why does a woman button her garments on the left side?" The question is discussed in the London Tailor and Cutter by several correspondents, one of whom advances this theory: "For ladies to have the buttonholes in the right side of their garments has its origin in the times when it was necessary for a lady when going out at night to have a gentleman escort, who supported her upon his left arm, leaving his right or sword arm at liberty. Thus the lady's left hand would be free to fasten or unfasten her cloak at her own pleasure and without inconvenience."

Endorsed by the County.

"The most popular remedy in Otsego county, and the best friend of my family," writes Wm. M. Dietz, editor and publisher of the Otsego Journal, Gilbertsville, N. Y., "is Dr. King's New Discovery. It has proved to be an infallible cure for coughs and colds, making short work of the worst of them. We always keep a bottle in the house. I believe it to be the most valuable prescription known for Lung and Throat diseases." Guaranteed to never disappoint the taker, by E. S. Leadbeater & Sons, druggists. Price 50c and $1. Glasgow's Cable Road.

A massive rope is used daily in pulling all the London trains out of Glasgow from Queen street high level station over the Cowlaire gradient, the first mile and a half of which is so steep as to exceed the power of the locomotive. This rope, which is made of steel wire and is three miles long, costs £600 and lasts from ten to twelve months. It is endless and lies on the surface of the up and down tracks supported on iron pulleys, dipping underground at either end. At Glasgow each train is fastened on to it by a chain arrangement, and the rope, being set in motion by the stationary engine at Cowlaire, pulls the train to the summit, from which point it continues the journey unassisted.—London Graphic.

Causes of Insanity.

In England, where everything that is excessive in a great civilization is to be found, mental alienation is very frequent. Many especial causes contribute to this, such as ill assorted marriages, which engender hereditary insanity; hazardous and desperate speculations, the frequency of commercial crises, the increasing fluctuations of political life, the laziness peculiar to the rich, the abuse of fermented liquors and, lastly, the immense number of religious sects.—London Hospital.

So He Heard.
